A Principal consultant, has been a SAS user since **1992**. His impressive list of publications includes **2 books**.

I was honored to be interviewed by Data-Steps.com on '[How to become a Top SAS Programmer](#)'. As a SAS Savvy member, you already are applying one of my tips by not re-inventing the wheel. Once you see how easy it is to find SAS solutions in

SAS Savvy, you quickly master core and specialized SAS topics. I am happy to be a part of your SAS career goal by mentoring and providing SAS technical support.

To help support recent graduate members, SAS Savvy was happy to post Internship Opportunities with Riskpulse.

Quote from UCSD online CDISC student, 'Thank you very much, Professor Gupta, your slides and lecture presentations are excellent and help me a lot to do the assignments.', Sincerely, Sophie
