GREETINGS!

SAS Savvy March Newsletter

Spring has arrived!

SAS Savvy is the Key for Highly Effective SAS Programmers.

Are you a highly effective SAS Programmer? See if you have the five habits to help you become more productive.

If you missed the recent popular presentation, you can view the [video recording](#) to see how SAS Savvy provides an invaluable resource to leverage your SAS experience and build on your knowledge. See the recent [SAS SAVvy Open House video recording](#) if you missed it.

Congratulations to Wen Xie and Hailu Chen as winners of SAS Savvy memberships. SAS Savvy is happy to support through memberships higher education competition at colleges and universities.

Help spread the word about SAS Savvy. Missed the recent [SAS Savvy Open House](#)? Watch the [video recording](#) now and see what's new.

To continue to navigate SAS Savvy, you can use the standard left side menu or the new Site Mind Map which should take you to each page.

SAS Job Aids	SAS Programming Tasks	Savvy Resources
------------------------------	---------------------------------------	---------------------------------

These are the three levels to fit all SAS programmers. I hope these levels make it easier to find SAS papers and tips to address your questions and needs. Let me know what you think. Remember, free SAS technical support is just an e-mail away.

Beginner SAS Programmer
Advanced SAS Programmer
Macro SAS Programmer

SAS Savvy Updates

Below are updates made in March. Cannot wait till the end of the month for updates? You can subscribe to [free daily updates](#).

1. On the [Statistical Graphics](#) page, I added several SAS papers and presentations on PROC SGPLOT as well as SAS Institute reference for PROC SGPLOT.
2. In the [common FAQ](#) section, I added this question on PUT() functions - Can PUT() function be applied in a WHERE statement to apply conditions?
3. On the [New to SAS Programming](#) page, I added four SAS papers on the 'Day in the Life of Data' series.

4. On the [CDISC Video Portal](#) page, I added a link to funny SAS/CDISC videos. You have to see these cartoons to believe them. They are great and informative.

5. Now each training session video has links from their related SAS blog page. This will make it easier to access them when searching for a SAS topic.

6. The collection of [SAS training sessions](#) has grown to 38 videos. From beginner to advanced SAS programmer, I am confident there is a topic you can learn from.

Remember, each month, we focus on a new topic and members can also request topics.

7. Now that we have medical device professionals as SAS Savvy members and I am including a new page for [CDISC content for medical devices](#), I have created a separate page for medical devices.

SAS Savvy Training

SAS Savvy training covers new SAS topics and requests. Please see the video recording if you missed the live session. Below is the schedule for the next training sessions. As always, please [e-mail](#) me your favorite topic.
