Interview SAS Book Author

Sunil K. Gupta

A Principal consultant, has been a SAS user since **1992**. His impressive list of publications includes 2 books.

I was honored to be interviewed by Data Steps on 'How to become a Top SAS Programmer'. During this interview I also mention the unique SAS resources to help all levels of SAS programmers on SAS Savvy. [YouTube link with over 11,000 views.](#)

I am happy to complete another successful UCSD CDISC On-line class. Below is a quote from one of the students -

'I have enjoyed taking this class and learning all about the CDISC standards and rules. It was a lot of good information and I will keep working on it. Thank you for all your help and the live sessions. They were very helpful.' Thanks, Shweta Bhargava.
